

Warranty conditions

All parts supplied by Fluid Global Solutions s.r.l. are perfectly interchangeable and are produced in accordance with procedures for the correct identification of product requirements for raw materials, production processes, surface treatments, and part tolerances. This is to guarantee that the product has features equivalent to or superior to those of the original.

During the guarantee period, any item showing production failures/defects will be replaced by Fluid Global Solutions s.r.l. completely free of charge in due time. Within the guarantee period, returned parts remain the property of Fluid Global Solutions s.r.l.

In case of wrong installation of supplied parts and/or low maintenance of the machinery where parts have been installed, Fluid Global Solutions s.r.l. rejects any kind of responsibility.

In this case, any exchange will be at the customer's charge.
